national directory of

ARCHITECTS AND ENGINEERS QUALIFIED IN FALLOUT SHELTER ANALYSIS

DEPARTMENT OF DEFENSE • OFFICE OF CIVIL DEFENSE

Architectural and Engineering Development Division

Washington, D.C.

FEBRUARY 1962

1961 Edition

This directory of Architects and Engineers is a listing of individuals who, as a minimum qualification, have successfully completed a two-week course in Fallout Shelter Analysis at an approved school under contract to the Office of Civil Defense, Department of Defense. Most of the individuals are registered professionals, however, this should not be assumed when selecting from this list.

The following listed Universities and Military Officers' schools conducted the intensive professional level Fallout Shelter Analysis Courses followed by a comprehensive written examination:

Worcester Polytechnic Institute, Worcester, Massachusetts
University of Florida, Gainesville, Florida
University of Michigan, Ann Arbor, Michigan
University of Illinois, Urbana, Illinois
University of Colorado, Boulder, Colorado
University of Washington, Seattle, Washington
University of California, Berkeley, California
Oklahoma State University, Stillwater, Oklahoma
U. S. Army Engineer School, Fort Belvoir, Virginia
U. S. Navy Civil Engineer Corps Officers School,
Port Huene, California

Each architect and engineer who successfully completed the course is being awarded a certificate of proficiency in Fallout Shelter Analysis bearing his serial number as shown in this directory.

Certification by the Department of Defense for the purpose of identifying those with recognized qualifications in Fallout Shelter Analysis is in no way a substitute for registration which is usually required for the practice of architecture or professional engineering in the location where these services are required. Registration in this sense can only be achieved by satisfying the requirements of the State Boards of Architectural or Engineering Examiners.
